Schulträger Stadt Heilbronn

Dear Sir or Madam,

We are a vocational school where students can prepare either for their future careers or for higher education.

We offer different training courses:

Vocational preparatory classes help students to prepare for the lower secondary degree.

Furthermore we qualify students in Vocational Training Courses in various occupational areas such as print media and non-print media, painting, constructional engineering, carpentry and hairdressing. In addition to that plasterers may attend our school for master craftspeople and prepare for their master exam.

Our College for Technology and Media provides the opportunity for our pupils to acquire qualification to study at a University of Applied Science within two years. Main focus on these full time courses is on technology, mechanics and IT as well as English, Social Studies and German. If you need any more information, please contact our school: www.jjws.de

Our school is located in Heilbronn / Germany, a town situated between Heidelberg and Stuttgart. It is a city in northern Baden-Württemberg, which is the heartland of the automotive industry: Audi, Mercedes Benz and Porsche have manufacturing plants here.

In Heilbronn you can find a multitude of places of interest and culture: Historic town hall with the decorative Astronomic Clock, St Kilian's Church, Deutschhof Monastery and Käthchen Haus. Our town is surrounded by rolling hills of wine yards. It is known as a wine capital with 510 hectares of vineyards in the heart of Germany's No. 1 red wine producing region and the top wine is unique to this region: Trollinger.

We are looking for partner schools to initiate a Comenius multilateral partnership starting in 2010. From 2006 – 2009 we already worked on a Comenius Project and now we have some new project ideas which we would like to implement.

One idea could be to make a (documentary?) film focusing on history, culture and social issues of the participating countries. We would like to involve nearly all occupational areas of our school in the project.

If you are interested in starting a new Comenius project with us, please do not hesitate to contact our project coordinator Ulla Rick: u.rick@jjws.de

Looking forward to hearing from you!

Yours faithfully

Ulla Rick
